LIBERO TRACKING INSTRUCTIONS

1. Enter Home & Visiting team in the tracking sheet.
2. Next to L: put the number being used for the that game. If no libero is being used, no tracking will take place.
3. Enter in the "SP" column the starting players for each team. This should be an exact match of the line-up on the score sheet.
4. When a libero enters the game as a replacement, cross off the number of the player the libero is replacing and put "L" on the line next to the number.
5. The player the libero comes into the game for can only be the libero replacement. Record the number of the player that must be the same number of the player as the number crossed out before the "L" (i.e., 23L23). Think "sandwich".
6. When the libero is replaced (again by the same player) the "L" is crossed out and the number of the player is next entered on the line.
7. If the libero serves, place a triangle around the serving order position in which the libero served.
8. The libero tracker also records all substitutions. When a player (not a libero) is substitutes out of the game, her number is crossed off and the player's number entering the game is written on the line.
9. There are unlimited libero replacements but only 18 substitutions per game.
10. NOTE: A different libero can be designate for each game but the designation must be made on the line-up sheet when it is submitted before the game.
