

# 2020 Virtual KLC – Recorded Session

## 12. Celebrate, Appreciate, Reflection – Kim & Linda

### Why should we Celebrate, Appreciate and Recognize –

- To show what has been accomplished – shows others what you have been doing, a job well done whether big or little, group or individual
- To say thank you – these are powerful, everyone likes to be recognized for a job well done
- To make others feel important – include everyone from members to parents to faculty, recognition motivates others to want to help again
- To look forward – this is what we've done, where can we go from here
- To have FUN!!!
