## FINISHING STRONG!

We have officially started Spring! The school year is winding down and soon you will be celebrating graduations and the end of another successful school year.

With the impending end of the school year in sight, it is important to conduct KAY Board elections (if those are conducted in the spring for your club) to determine who your leadership will be for the following year. It is also important to secure delegates for KLC this summer.

Please note that the dates for KLC are July 22-26, 2024. KLC materials are available to print on the KSHSAA KAY webpage. If you have any questions, please call or email myself or Kathleen. We are happy to help!

## BOARD ELECTIONS

Have you planned out your Board Elections? Many clubs choose to hold their board elections in the spring. It is important that potential candidates understand their role and responsibilities for those positions. Board elections are not a "one size fits all" approach. As sponsors, you should determine your club's wants and needs to determine your board positions and when your elections take place.
