

National Activities Month

Sportsmanship Recognition Certificate Presentation

KSHSAA Executive Director, Bill Faflick

With the cooperation of the National Federation, we have provided a digital copy of the “Award of Excellence” certificate to use during **National High School Activities Month, October 2024**. To help with your planning efforts for National Activities Month, we have more information and resources on our website at www.kshsaa.org under the “Schools” tab.

With support from the KSHSAA Student Advisory Team, the recommendation was to ask each member school to present the certificate to a deserving adult who models good sportsmanship in support of school activity programs.

The intent of the Student Advisory Team is to involve students in the selection of the honoree and in the actual presentation as well, at a highly visible event: a football game, volleyball match, soccer game, or pep assemble/rally. Selection and presentation might involve captains, cheerleaders, student body officers, or other appropriate student leaders. The goal is to present the award during National Activities Month.

The adult chosen would be one who has demonstrated ongoing support for the total activities program of your school. Obviously, the selection and presentation will require the assistance of the school administrative team. The certificate is designated to be personalized with the name of your school and honoree.

Please share with the KSHSAA ways in which you used the “Award of Excellence” certificate at your school. We would also appreciate pictures of the event to be used in future publications by the KSHSAA.

On behalf of the Student Advisory Team, I hope you will choose to be involved and ensure that a deserving patron of your school will be honored. Thank you in advance for your participation. I hope this opportunity results in a positive experience for all.

For certificates or posters, please visit the National Activities Month homepage:
