

Instructions To Find Past State Large Group I Ratings

1. Go to <http://www.kshsaachamps.org/>
2. Click on “Results” under the KSHSAA Gallery of Champions banner
3. A search box will pop up. In the “All Activities” blank, type in or scroll down to “State Music Festival”
4. Put in the year range you wish to find results for and click the “Search” button

Notes

1. Unfortunately, the “All Schools” field doesn’t work with music like it does with piano and other activities, so you can’t search by school only.
2. For some reason, the schools do not all show up in alphabetical order.
3. Once you get results from the search instructions above, you can hit the “Ctrl” and “F” keys together on your keyboard to search for a specific school.
4. If there is a number in the “Stat” column, that notes the number of groups from that school to receive a I rating in that category (i.e. band, orchestra, mixed chorus, tenor choir and treble choir).
5. As I’ve gone through Yearbooks for this task, it seems there are some years that results from all large group sites didn’t get submitted. I can’t completely vouch for anything pre-2006, before I started at the KSHSAA. If you see a year you think your school should be listed, email me at kwilhelm@kshsaa.org.
