9:30 OPENING SESSION: "Teacher's Guide to Building Trust in Social Media on Campus" – Kim Karr

For years, schools have pushed back against social media and digital technology in the hands of students on campus. But the world has shifted, and digital devices and platforms are an integral part of how students communicate, connect, and collaborate. Instead of limiting or restricting digital engagement, learn our best practices for supporting young people in developing a positive digital brand and using digital technology responsibly. We'll also teach you how to respond and investigate incidents of cyberbullying, harassment, slander, and more including how to best use social media for STUCO.
