REGION 6 VISION CONFERENCE

In April 2016, the Student Council state president, a student representative, and the state director from each of the NASSCED's (National Association of State Student Council Executive Directors) Region 6 states- Arizona, Arkansas, Colorado, Kansas, Missouri, New Mexico, and Oklahoma- met to create **VISION: Value, Inspire, Share, Insight, Opportunity, Network.**

The Region 6 VISION Conference, born from this meeting, brings together student and adult leaders to share their leadership values and insight.

Participants leave with renewed enthusiasm for Student Council involvement at their schools and in their communities. They gain ideas for service learning projects, stronger leadership skills, and new friendships.
