

# 2025 KSHSAA BOYS' TENNIS

## CLASSIFICATIONS (6A, 5A, 4A, 3-1A)

Tennis Classifications: 45/55 Format (to start Spring 2025)

-In April 2017, the KSHSAA Board of Directors approved a new classification system for its member schools.

-Class 6A shall include the 36 high schools with the largest enrollment; Class 5A the next 36; 4A the next 36; 3A the next 64; 2A the next 64; and Class 1A the remainder. Because 24 schools are needed to have a postseason tournament, this format would put all 4A, 3A, 2A and 1A schools in a classification together.

-NEW 45/55 FORMAT: In June 2024, the Executive Board approved a new formula to determine 4A and 3-1A tennis classifications. Because tennis classifications run by calendar year (and not school year), the new 45/55 formula will take affect in the Spring of 2025. After 6-5A classifications have been determined, the remaining schools participating in tennis will be classified based on the new 45/55 formula (45% of the remaining schools will be in Class 4A; 55% of the remaining schools will be in Class 3-1A). Therefore, depending on participation numbers, schools who are in the 3A classification for other activities could move up to 4A or schools in 4A could move down to 3-1A.

6A (35 schools)
Wichita-East HS
